Subject: Bill 1090

I would like to express my opinion regarding Bill 1090 and the creation of new Casinos along I-91, I-95 and I-84. I am totally against this proposal. The state of CT is in a fiscal crisis and building casinos in "hope" that new revenue will come into the state as a result, is an absolute irresponsible way of thinking. The State of CT has very large casinos and during this last recession, the revenues of those casinos plummeted and hurt the state because of its reliability of that revenue. The very idea that our State depends on those casinos for income lacks a sense of financial responsibility of our leaders.

I cannot support any action that capitilizes on money brought in to this state by gambling. It is ethically reprehensible to capitalize off of individuals who will gamble their hard earned money to "try" and make a buck.

Thank you,
Patricia Goble
